EDITORIAL

REVIEW PAPERS

Microorganisms in metalworking fluids: current issues in research and management ......................... 1
E.A. Trafny

Review of current evidence on the impact of pesticides, polychlorinated biphenyls and selected metals on attention deficit / hyperactivity disorder in children ........................................... 4
K. Polańska, J. Jurewicz, W. Hanke

ORIGINAL PAPERS

Gender differentiation of indirect self-destructiveness ................................................................. 16
K. Tsirigotis, W. Gruszczyński, and M. Tsirigotis-Maniecka

Predictors of job satisfaction among practicing dentists at hospitals in Suez Canal Area, Egypt ................................................................................................................................. 39
A.E. Fahim

Cadmium, mercury and lead in blood of urban women in Croatia, the Czech Republic, Poland, Slovakia, Slovenia, Sweden, China, Ecuador and Morocco ................................................................. 49

Dose-dependent relationship between prenatal exposure to fine particulates and exhaled carbon monoxide in non-asthmatic children. A population-based birth cohort study ........................................... 58
W.A. Jędrychowski, U. Maugerì, J. Spengler, E. Mróz, E. Flak, M. Klimaszewska-Rembiasz, R. Jacek, A. Sowa

Effect of residential proximity to traffic on respiratory disorders in school children in upper Silesian Industrial Zone, Poland ................................................................. 73
M. Skrzypek, J.E. Zejda, M. Kowalska, E.M. Czech

The influence of the low-frequency magnetic fields of different parameters on the secretion of cortisol in men ................................................................. 83
M. Woldańska-Okońska, J. Czernicki, M. Karasek

Cell phone ringtone, but not landline phone ringtone, affects complex reaction time ......................... 92
R. Zajdel, J. Zajdel, J. Śmigielski, D. Nowak

Observance of hand washing procedures performed by the medical personnel before patient contact. Part I ................................................................................................................................. 102
A. Garus-Pakowska, W. Sobala, F. Szatko

The level of knowledge of, attitude toward and emphasis given to HBV and HCV infections among healthcare professionals: data from a tertiary hospital in Turkey ................................................................................................................................. 113
A.H. Cekin, Y. Cekin, A. Ozdemir
Determinants of environmental domain of quality of life in economically active population living in Silesian agglomeration, Poland .......................................................... 122
M. Kowalska, F. Danso, M. Humeniuk, E. Kulak, H. Arasiewicz

A cytogenetic approach on the effects of low levels of ionizing radiation (IR) on the exposed Tunisian hospital workers .......................................................... 132
S. Bouraoui, S. Mougou, A. Drira, F. Tabka, N. Bouali, N. Mrizek, H. Elghezal, A. Saad

Indoor air particles in office buildings with suspected indoor air problems in the Helsinki area ...... 144
S. Lappalainen, H. Salonen, K. Salmi, K. Reijula

Electronic noses for monitoring benzene occupational exposure in biological samples of Egyptian workers .......................................................... 155
E.I. Mohamed, G. Khalil, S.M. Abdel-Mageed, A.M. Bayoumi, H.S. Ramadan, M.A. Kotb

SHORT COMMUNICATION

Correlation of chromosome damage and promoter methylation status of the DNA repair genes MGMT and HMLH1 in Chinese vinyl chloride monomer (VCM)-exposed workers........ 165
EDITORIAL ........................................................................................................................................... 1
